Summary

Experienced Full Stack Developer with around 5 years of expertise in Typescript and Java used in Angular and Spring Frameworks. Skilled in designing scalable and high performing applications. Proven track record in UI and API development, debugging with strong knowledge on Agile and DevOps practices. Delivered reliable, secure, and optimized software solutions by collaborating with cross-functional teams to achieve business objectives.

RELEVANT EXPERIENCE

Infosys, Bengaluru, India

May 2024 – Present

Role: Technology Analyst

BNSF - Railways

- Developed and implemented scalable single-page applications (SPAs) using Angular.
- Built applications enable BNSF employees to track and manage miscellaneous transportation activities.
- Collaborated with business stakeholders to implement key functionalities including invoice generation, Contract management, maintenance tracking, storage management, inquiries, and unit controls.
- Ensured responsive UI design and improved user experience across applications.
- Designed, developed, and tested backend services using Java and Spring Boot in a microservices architecture.
- Identified and resolved 100+ critical defects using SOAP UI, significantly improving system stability and Reliability.
- Implemented and optimized business logic across multiple microservices to enhance performance and Scalability.
- Leveraged caching mechanisms and Apache Kafka to improve application efficiency and data processing.
- Assisted with application deployment and cloud integration using AWS.

HCL Technologies, Bengaluru, India

Nov 2020 – May 2024

Role: Software Engineer

Deutsche – Bank

- Developed a responsive single-page web application using Angular to support real-time stock trading for end Users.
- Designed and implemented business logic for user data collection, including KYC verification, knowledge assessment, and compliance validations.
- Built personalized stock and investment views based on user knowledge level and risk exposure.
- Implemented interactive data visualizations (bar charts, graphs, dashboards) to display portfolio performance and investment insights.
- Ensured a consistent, adaptive user interface across devices using Bootstrap components and responsive design principles.

Technical Skills

- Languages: JavaScript/TypeScript, Java (Intermediate).
- Back-end Enhancements: Spring Boot, Microservices, Nodejs (Intermediate), Express.js, RESTful APIs, Kafka.
- Front-end Technologies: Angular, ReactJS, Bootstrap, HTML, CSS, Bootstrap, AJAX, JSON handling with Axios.
- Testing & Tools: JUnit, Mockito, Postman, JEST, GitLab, Git, Docker (Basic).
- Cloud & DevOps: AWS - Basic, Jenkins, PCF/ Kubernetes.
- Database Technologies: SQL.
- Development Methodologies: Agile (Scrum), Waterfall Model.

EDUCATIONAL QUALIFICATIONS

- **B.E ECE | June 2016 – May 2020** - KPR Institute of Engineering and Technology | **CGPA – 7.8**
- **HSC State Board | 2015 – 2016** - Vikas Vidyalaya School | **Percentage – 86%**
- **SSLC State Board | 2013 – 2014** - Vikas Vidyalaya School | **Percentage – 96%**
